Thickest & most stable engineered flooring in the industry.

www.gaylordhardwoodflooring.com

*Longest &
Widest Boards in
the Industry*

Benefits

- Boards up to 12' long.
- Widths up to 10 inches wide
- Oak, Maple, and Hickory in stock at all times
- 3/4" thick so it meets flush with stair nosings, tiles, etc.
- 3/16" wear layer
- Can be installed in basements or over radiant heat
- 10 coat titanium oxide finish with 40 year warranty
- Five times more stable than solid hardwood, virtually eliminating cupping & gaps.
- Random lengths create the same look as solid wood.
- Most engineered products have set lengths, creating a repetitive pattern.
- Can be nailed, stapled, floated or glued.
